Required Documents

Application conditions

- Only projects co-directed by a clinician and a basic scientist will be accepted.
- Applicants must be attached to a Swiss academic institution or research lab.

Content of the application

- Strategic aim of the project
- Research plan, including the following:
  - Specific goals
  - Conceptual experimental work plan for the achievement of these goals
  - Milestones, results and timelines
  - Translational goal
- Detailed budget (salaries, expenses, including material)
- Curricula Vitae of the two project leaders, including publications of the last 5 years (or the 10 most relevant publications)

Application size

The Strategic aim, Research plan and Budget should be maximally 10 pages, references not included. Beyond this, short CVs (less than 2 pages each) should be included, and only the top 5 to 10 most relevant publications should be listed. A link to PubMed or Google Scholar for the full publication list can be included.

We do not require a specific font size, but please ensure that the text is properly readable.
